

ASIA LAW 360: COMPREHENSIVE MEMBER-BASED LEGAL INFORMATION PLATFORM FOR GLOBAL COMPANIES

Asia Law 360 is a legal information service designed for multinational companies operating or investing across Asia. The service is provided by One Asia Lawyers Group together with our local offices.

It was established to address a key challenge faced by global companies, particularly Japanese companies expanding into Asia, by offering a systematic view of relevant legal updates to ensure clients are not blindsided by new regulations.

Why is Asia Law 360 Important?

Asia is not a single legal system. The region comprises a mix of Common Law and Civil Law jurisdictions, each with its own regulatory framework, enforcement practices, and legal culture. Every country has distinct rules on corporate matters, employment and labour, data protection, competition, anti-bribery, and industry-specific licensing. As laws evolve, companies must monitor how changes affect their structures, contracts, operations, and reporting obligations.

Many updates are issued only in local languages, increasing the compliance burden. Without reliable local expertise, businesses risk overlooking amendments or misinterpreting regulatory intent. Asia Law 360 provides a centralized solution by delivering relevant regulatory updates applicable to each country and providing clear, business-focused summaries to support regional compliance.

Why Asia Law 360 Matters to Management

Regulatory compliance is now a board-level responsibility, not just a legal function. Senior management must oversee regulatory risks and respond quickly to legal changes that may impact the business. Early awareness reduces exposure to fines, liability, reputational harm, and operational disruption.

Regulatory insight also supports strategy, guiding decisions on market entry, restructuring, cross-border investments, and M&A, while strengthening corporate governance and internal controls. Structured regulatory oversight is now essential to responsible leadership.

Asia Law 360 delivers clear, business-focused updates, enabling organizations to move from reactive compliance to proactive risk management and turn regulatory complexity into a strategic advantage.

Why One Asia Lawyers

There has been no single platform dedicated to systematically tracking legal developments across Asia for foreign investors. By choosing Asia Law 360, you partner with **One Asia Lawyers** (“OAL”), a leading international legal network. We offer a “One Window” approach, treating ASEAN and South Asia as a single jurisdiction with a unified point of contact. Our teams combine strong local expertise with experienced Japanese and international counsel to deliver advice aligned with global standards. With broad legal coverage and a proven track record supporting multinational corporations, we help clients effectively manage cross-border legal risks.

Our Services

Asia Law 360 is accessible on a member-based basis through a secure online platform, with distribution also provided via email. We systematically monitor official government gazettes and regulatory publications and issue a monthly report listing newly enacted and amended laws. Each update is reviewed by experienced local lawyers who identify regulations potentially impacting multinational companies and provide clear, concise explanations highlighting key legal developments.

Scope of Legal Coverage

The report provides a comprehensive list of updated regulations across key legal areas, including the Civil and Commercial Code; Criminal Code; Civil and Criminal Procedure Codes; Land Code; Labour Protection Act and Labour Relations Act; Employment Arrangement and Jobseeker Protection Act; Copyright, Patent, and Trademark Acts; Computer Crimes Act and Electronic Transactions Act; Personal Data Protection Act; Land Transport Act; Social Security Act; Securities and Exchange Act; Trade Competition Act and Trade Secrets Act; Organic Act on Anti-Corruption; Bankruptcy Act; Act on Determining Offenses Relating to Partnerships, Companies, Associations, and Foundations; Foreign Business Act; Investment Promotion Act; Hazardous Substances Act; Factory Act; Machinery Registration Act; Cybersecurity Act; and other significant laws and regulations.

Levels of Regulations Covered

The report includes all updates to Acts, Codes, Emergency Decrees, Royal Decrees, Ministerial Regulations, Ministerial Notifications, Regulations, and Notifications, as well as other significant regulatory updates from Ministerial Regulations, Ministerial Notifications, Regulations, and Notifications.

Jurisdictional Coverage

Our jurisdictional coverage includes Singapore, Thailand, Malaysia, Indonesia, the Philippines, Vietnam, Cambodia, Laos, Australia, and New Zealand, enabling clients to monitor regulatory developments across key Asia-Pacific markets through a single, integrated platform.

Integrated Legal Support

Where deeper analysis is required, clients may request detailed regulatory reports, impact assessments, compliance implementation guidance, and tailored legal advice. Legal advice is provided by lawyers from One Asia Lawyers Group and its affiliated law firms, ensuring that clients receive practical, jurisdiction-specific counsel grounded in local expertise.
