

One Asia Lawyers Group X Legal Vision

**Australia Law Webinar**

**Latest Practice in Foreign Investment and Dispute Resolution in Australia in 2021  
~Reformed Foreign Investment Law and General Takeovers Law~**

Since the opening of our Australia and New Zealand office in October this year, we have already received many enquiries, for which we would like to express our sincere gratitude.

In Australia, a major reform to the Foreign Acquisitions and Takeovers Act 1975 (Cth) was proposed on 5 June 2020 and received a royal assent on 10 December 2020 after two stages of public consultation. The amendments will take effect on 1 January 2021. As the amendments will tighten the screening criteria for foreign investment and also significantly expand the regulatory authority's powers, they contain many details that companies that are considering to invest or expand into Australia should be aware of.

Therefore, we are pleased to announce that One Asia Lawyers Group (Legal Vision) will host a webinar on Australian foreign investment law and general takeover law framework, which will include commentary and a Q&A session by a local lawyer.

The seminar will also cover the legal and tax advantages of investing in Australia through a Singapore-incorporated company, as well as what kind of dispute resolution provisions are effective for entering and investing in Australia, comparing the dispute resolution system in Australia with those in Japan and Singapore.

We look forward to seeing you in the Webinar.

- Details -
